Conduit Systems, Inc. Welcomes David Burgess as Lead Systems Engineer

Lincoln, RI, August 3, 2006 - Conduit Systems, Inc., a leading provider of Outsourced IT Support and an Application Service Provider, today announced the addition of David Burgess to the Conduit Systems team. David brings over 11 years of IT experience to focus on Conduit's more demanding IT engagements. David will spearhead Conduit's IT Initiatives - specialized client projects with company-wide IT concerns such as server migration, disaster planning and recovery, collaboration tools and infrastructure.

Before joining Conduit, David spent 5 years at Phase Forward in Waltham, MA as Systems Engineer. At Phase Forward, David was responsible for migrating over 200 physical servers to virtual servers using various software tools. David also managed more than 100 remote servers in California and Virginia.

His experience at Phase Forward included other forward-looking projects such as a complete Disaster Recovery plan and procedures using LiveVault, a brick-level backup system for MicroSoft Exchange services. David was also responsible for the migration of all Exchange 5.5 servers to Exchange 2003.

Prior to his experience at Phase Forward, David spent 3 years as Systems Engineer at Thomson Financial in Boston, MA and 2 years as Systems Engineer at Productivity Point International in Newton, MA.

Conduit Systems is excited by the opportunities David's arrival signals. With David, Conduit will continue to provide a forward-looking, consultative approach to meeting our clients' business objectives through innovative IT solutions.
