Conduit Systems, Inc. Moves to State-of-the-Art Data Center

Lincoln, RI, September 17, 2008 - Conduit Systems, Inc., a leading provider of Outsourced IT Support today announced the move from their 1525 Old Louisquisset Pike location to a new office/data center located at 14 Breakneck Hill Road in Lincoln, RI.

As a result of this move, Conduit can offer greater security, redundancy and integrity of their clients data and applications. In addition to a dedicated data center, the new facility houses administrative offices and conference space for the core business operations.

The new data center provides centralized services for many disciplines and functions. Collaborative services such as e-mail, virtual workspaces and secure file sharing continue to be the mainstay of Conduit's hosted service offerings. Conduit has built upon these core services to include SPAM and virus protection as well as smartphone integration. Continuous data protection and backup add another layer of security and peace of mind. Many other offerings are available on a case by case basis allowing the client to customize their hosted solution to suit their specific needs.

Improved infrastructure has allowed Conduit to broaden its IT management capabilities through the introduction of Managed Services. With this support approach, Conduit utilizes centralized servers to monitor and manage their clients hardware and infrastructure. Much of the day-to-day support and proactive tasks can be addressed remotely saving both time and money. This frees our consultants to focus on the IT solutions needed to grow and support our dynamic clients.

Through these difficult financial times, Conduit's hosted solutions offer their clients enterprise-class functionality without the enormous expense of infrastructure, hardware and software. Instead, clients are able to redirect those capital expenditures towards their core businesses. Pricing based on end-users, organizations or stand-alone servers address the economic needs of the two-person startup or the well established, multi-site corporation.

Both prospective and current clients are encouraged to visit Conduit's new facility at 14 Breakneck Hill Road in Lincoln, RI.

For more information on all the available contract options, contact Dan Tully, Executive V.P. at Conduit Systems at 888-426-4100 x 4140 or ddtully@conduitsystems.com.
